GMS USA Price Changes – Effective 8/1/2026

When it comes to lock cylinders, we know you have many choices. Thank you for choosing GMS and for your continued trust in us as your preferred partner.

As US tariff conditions have stabilized, we are transitioning current tariff-related surcharges into our standard list price structure. Along with this change, an adjustment to list pricing is required to address sustained cost increases due to the current inflationary environment.

GMS Lock is announcing a List Price Increase effective August 1, 2026. After maintaining stable pricing for the past four years, the new list prices will now reflect the 12% surcharge along with a 4% increase to our current list price. (Total 16% increase from current List Prices)

PDF Price Books will be made available via GMS Distributor Resource Portal and by email. Hard copy price books will also be available for distribution as they become available.

Orders received before August 1, 2026, will be invoiced under the current pricing/tariff structure. Orders received on or after August 1, 2026, will be invoiced with new stated list price increases above.

If you have any questions about this announcement, please don't hesitate to contact our sales team or customer service.

Thank you for your continued trust in GMS.

Sincerely,

Jade Holland
