Re: ASSA ABLOY Access & Egress Hardware, Accessories & Glass Solutions, High Security, and Electromechanical Solutions Group Brands Price Adjustments – **US ONLY**

Thank you for your partnership and continued support of our brands. Our desire to continue to serve you and your customers drives our commitment to investing in the best solutions, training and innovation.

Although elements of the U.S. tariff schedule continue to evolve, we believe the environment has stabilized sufficiently to allow us to absorb the existing tariff charges into our standard base pricing unless otherwise noted. Beyond this adjustment, our brands will also apply modest price increases to offset other ongoing inflationary cost impacts.

Effective February 2, 2026, the following price adjustments will be implemented:

Access & Egress Hardware Group

- ASSA ABLOY ACCENTRA® (mechanical, digital and residential products), Arrow™, Centrios, Corbin Russwin®, Norton Rixson®, SARGENT® and Securitech® will adjust current prices (2025 price + tariff adjustment) plus 2.7%*

Accessories & Glass Solutions Group

- McKinney®, Pemko, Rockwood®, and ASSA ABLOY Glass Solutions will implement a price adjustment averaging 5.5%*. Please note that the existing tariff-related list adjustment of 6.25% will remain in effect.

High Security Group

- Medeco and ASSA will adjust current prices (2025 price + tariff adjustment) plus 4%*

Electromechanical Solutions Group

- Adams Rite®, Alarm Controls®, Control iD, HES® and Securitron® will adjust current prices (2025 price + tariff adjustment) plus 3%*

**Percentages shown are averages for each brand. Percentages may vary at the series level and may be higher, lower or remain unadjusted.*

Quotation policies implemented to date remain unchanged and existing quotes will be honored. Upon expiration, quotes will be updated to 2026 pricing.

If you have any questions or need further assistance, your Door Security Solutions sales representative is here to help. To stay informed, please encourage your employees to subscribe to our communications using this link ([subscribe here](#)) to select desired brand communications.

We truly appreciate your continued support and partnership.

Sincerely,
