December 2, 2025

Dear Valued Partner,

Thank you for your continued trust and collaboration with Hager Companies. As we look ahead to the coming year, we want to provide you with timely information to support your forecasting and business planning.

Effective March 2, 2026, we will implement a modest price adjustment averaging approximately 4% across our product portfolio. We are sharing this update well in advance to give you ample time to prepare.

Over the past year, we have worked diligently to manage costs and improve efficiencies, minimizing the need for frequent changes. However, sustained increases in raw material and freight costs have necessitated this adjustment. This measured increase ensures we can continue delivering the quality, reliability, and service you expect from Hager.

Our commitment to you remains unchanged: we will keep investing in our operations, processes, and people to provide dependable products and innovative solutions that help your business succeed.

An updated digital price list will be available online on February 1, 2026, for your convenience.

We greatly appreciate your partnership and loyalty. Thank you for choosing Hager Companies - we look forward to continuing to grow together.

Warm regards,  
Your Hager Companies Team
